◆ ABOUT ALTINBAŞ

Altınbaş University was founded in 2008 under the name of “Istanbul Kemerburgaz University” as a non-profit foundation university in Istanbul, Türkiye. The university proceeds on its way towards the future after its name was changed to “Altınbaş University” in 2017. Having welcomed

its first students in the academic year 2011/12, Altınbaş University grew into an international research university showing its breakthrough progress within a very short period. Today, it continues to provide value-added contributions to the scientific community with its the high number of granted patents, TUBITAK projects, and high rate of faculty publications, and participation in international conferences. With its

strong academic staff adding value to universal knowledge, its global structure, international collaborations, and its entrepreneurial, innovative, and competitive vision that enables students to develop and maintain a broader perspective all the time, Altınbaş University keeps enhancing students’ experience and learning process to ensure all its graduates stand out in a crowd of competitors.

Sakshi Rajendra Singh Bundeli
Exchange Student - Georgian American University, Georgia

“ I am Sakshi, medical student at AU. I am originally from India, and I am studying medicine in Georgian American University. I am in Istanbul for my exchange semester at Altinbaş University. This is my first exchange program, and so far the journey has been amazing. The university campus and the faculty is very nice, and I have experienced that the people at the university are always ready to help you. There were many ups and downs in the beginning of my journey but once I settled everything became very smooth.

Mohamed Boukricha
Erasmus Student - University of Jaen, Spain

“ I am a final year student of Industrial Engineering from Spain. Getting to live for a while in Istanbul which is the most populated European city is an unforgettable experience for me. This 4-month experience has made me fall in love with its people, culture and traditions; and that makes me feel at home. The educational level is very good in Türkiye because it is very practical and theoretical; and that make students better educated. Studying this year in Türkiye and in English makes my mind open more and have more opportunities for my professional future.

Sebastian Bojalil Diego
Exchange Student - University of the Americas Puebla, Mexico

“ I lived a few months in one of the most interesting, and touristic cities in the world. Istanbul gave me profound experience to move around, and live with people from around the world; because it's basically the center of the planet. It cannot be compared to any other city, such as an amazing history, culture, food, and architecture. The people were always nice with me. Erasmus and Exchange Office was always really kind and helpful with all the situations.

”

Istanbul is a lively city with a rich cultural heritage, thanks to its geographical location. With more than 8000 years of glamorous history, the city has always been an important metropolis as the former capital of many empires, including the Roman, Byzantine, Latin, and Ottoman Empire.

where the CONTI- NENTS MEET ISTANBUL

Istanbul fascinates visitors with the precious ancient monuments and their unique beauty with the Bosphorus passing across the city to separate Europe and Asia. High standards of education, internationally recognized degrees, and modern campuses with outstanding facilities are also the reasons why many students from all around the world are attracted to Türkiye and Istanbul.

Maryam Ashfaq
Exchange Student - Bahria University, Pakistan

“ I did my Exchange at Altınbaş University, Istanbul and I can safely say that it is one of the most enriching and fruitful experiences of my life. Not only did I learn the basics of Turkish language, Turkish culture but the work I accomplished during this exchange deeply impacted me and helped me evolve both academically and personally. One thing that truly marked me during my exchange was the friendships that I got to make, I spent so much time with people coming from different countries.

Nicolò Matteucci
Erasmus Student – Milan University, Italy

“

I am living in Istanbul one of the most exciting experiences of my whole life. I have been enlightened by the course of Critical Security Approaches: rethinking national, regional and global security. I have always been interested in International Relations theories since they can help us to develop and foster understanding regarding how the world works. I have been spending most of the time in the library and, simultaneously, exploring the city and its cultural heritage. A special thanks goes to the Erasmus and Exchange Office and to the Altınbaş University as a whole, for having accepted me in this outstanding place.

”
